

External (81) Course Petition for Undergraduate and Graduate

An external course is similar to an independent study, except that the material covered out-of-class is the same as that taught in a regularly scheduled course. External courses are restricted to students formally admitted to the School of Continuing Studies or to students who have achieved senior status as bachelor degree candidates but who have not and cannot satisfy graduation requirements on time through regularly scheduled classes. Students are advised that a number of courses cannot be satisfied through external study. External study requires the approval of the dean.

Students interested in enrolling in external courses must first meet with a member of the faculty to complete a Petition for External Course form, available at the appropriate dean's office. The form must be submitted to the student's dean for approval.

Students must complete financial arrangements with the Bursar if the course is taken as a sixth course. Students should complete this process one semester in advance of taking an external course.
