

EDU 349 – Content and Processes for Teaching Mathematics in the Elementary School

Prerequisites: EDU 200 and EDU 202

This course is designed to help prospective elementary teachers enrich their understanding of the mathematical content and processes taught in the elementary school curriculum. The topics are built around the content and process standards of the National Council of Teachers of Mathematics. This course enables students to acquire a clearer understanding of the concepts and methods taught in EDU 350.

(3 credits) Fall, Spring
