Please note that each resident of the shared room/bedroom will receive a \$750.00 discount for the semester and those sharing the apartment will receive a \$100.00 discount for the semester. **We would like to request the following additional furniture** ☐ **lofted bed or** ☐ **non-lofted bed** ☐ **dresser** ☐ **desk & chair.** Baypoint double beds will be changed to twin extra long beds. Residents may request an additional wardrobe while supplies last. **No furniture can be removed from a supersized room/apartment once it is in place. Please note that should a room conflict arise, a room change may not be possible.** All roommate conflicts will be mediated by a Professional Staff member before any change will be considered if a room change is not possible. If a space does become available in the room/apartment, the Department of Housing will return the room to its original occupancy and all residents will have the discount prorated. An appointment will be scheduled to remove furniture from the room. **Any room that becomes un-supersized may take up to three weeks to have the furniture removed. Baypoint rooms will be able to have the third set of furniture removed but will not be able to have double beds brought back into the room.** A new agreement will be developed should all residents agree to bring in another student. **If it is determined that the Supersize process is being completed in an effort to manipulate the housing selection process (i.e. the student who CO's/Lottery's the room/apartment withdraws, etc.), then the entire room/apartment will be relocated in any available space(s) after the hall selection process concludes.**

We understand that the room we selected had a stated occupancy as a \_\_\_\_\_ and we have agreed to house an additional student.
