## PROFESSIONAL/ACADEMIC GOALS

- To continue to develop expertise in the teaching of architecture through practice, observation of built works and focused reading on theoretical issues pertaining to architectural design and the production of housing.
- To work to integrate sustainable design principles into all architectural production, so as to make sustainable works the normative condition.
- To continue to explore the historical relationship between industry, new town and/or urban developments and congregate housing.
- To continue to practice architecture, making buildings of lasting value, exemplifying the tradition of practice enriching teaching, and teaching enriching practice.
- To develop my skills and knowledge to achieve excellence in education.
