SUGGESTION FORM >

### **September's Tip: Download the new FREE! Rave Guardian Phone App**

All students, faculty and staff are encouraged to download **Rave Guardian** – a new campus safety app available at the University that turns your phone into a personal safety device.

The free app, available for both iPhone and Android smartphones, allows users to check in with family, friends, Public Safety or others you trust to help you stay safe. The app has several unique safety functions:

#### **Rave Guardian is your personal Blue Light phone**

Easily call Public Safety when on campus or 911 when off campus

**Call Campus Police**

**Call 9-1-1**

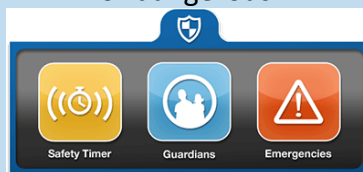

#### **Rave Guardian is your safety check-in**

Set up a Safety Timer before you leave to go out or if you are in an unfamiliar place – your “Guardian” contacts will be notified if you don’t check in before the timer expires.

#### **Rave Guardian is your anonymous tip reporting line**

Send an anonymous tip to Public Safety if you see something on campus that looks out of place or dangerous.
