

# MINOR AND CORE CONCENTRATION PROFESSIONAL AND PUBLIC WRITING

Students who minor in Professional and Public Writing learn to write for a variety of audiences including those in the academic, public, and professional realm. Minors gain in-depth knowledge of the writing process and learn to see writing as both an individual and collaborative enterprise. Consisting of a wide range of courses, the minor offers students opportunities to write technical documents, grants, travel narratives, and more. Paired with your chosen major, a writing minor will help you write better in your other courses and prepare you to write successfully after college.

- + Do you want your writing to make positive changes in the world?
- + Do you want to improve your written communication skills to help you excel in other fields such as law or the sciences?
- + Do you want to learn to express your ideas clearly and engage your readers?
