

RWU Wireless Network Guide

Students should only use RWUResNet/Students1 which requires secure registration. The "RWU Guests" network is for guests to the University only and is not secure.

1. Locate and connect to RWUResNet

When prompted for the network security key enter "rwuhawks" without quotes and click OK.

Students1 uses the same registration process as RWUResNet. Join the network as shown above, once connected please visit a non-RWU website, i.e. www.wikipedia.org.

2. RWU Login page & Security Tool Installation

Welcome to the Network!

In order to ensure a safe operating environment for all users of the campus network, all computers are required to install and run various software to ensure a safe operating environment (anti-virus software, appropriate security patches, etc.). To ensure compliance, we require that all users install a software policy key.

Yes, I will install the SafeConnect Policy Key Client and accept the terms and conditions for Internet Use

When the initial File Download box comes up, please click "Open."

Netscape & FireFox users, please click "Save" and when the file finishes downloading, click on the installer.

[I DO NOT ACCEPT](#)

If you click "I DO NOT ACCEPT" you will not have internet access.

3. Install Security Software

Please login using your first initial, last name and three digits found in your email address, followed by your password. If you are registering a Mac or PC, you will be required to download and run a security tool that verifies you have the required updates and antivirus/malware installed. Once you have successfully registered you will be directed to the Roger Williams University main web site. If you would like to register a game console/media device, please use the following link: <https://172.20.1.50:8443/enroll>
