Roger Williams University Fire Safety Related Policies

**Portable Electric Heaters**

Electrical appliances such as space heaters, air conditioners, electric blankets, and immersion heater coils which are extreme fire hazards or appliances that are not suitable for a residence hall environment are prohibited. Microwaves, toaster ovens, hot plates, fry pans, indoor grills, and other cooling appliances are only allowed in the private kitchen areas at the Roger Williams University Almeida Apartment Complex and the Bayside Apartment Complex. The University reserves the right to confiscate and dispose of any appliance deemed hazardous. It is the student’s responsibility to check with the Department of Residence Life and Housing whether or not appliances other than those listed above are allowed.

**Smoking**

Smoking is prohibited in all residence halls including apartments. All residence hall rooms, including apartments, are smoke-free. Smoking is only permitted in designated gazebos located near the residence halls. (A map of these locations can be found in the student handbook). Hookahs and other smoking devices are not permitted in any residence hall including apartments. Students who are found smoking in the residence halls may be assessed a fine or otherwise addressed through the University Conduct Process.

**Open Flames / Candles**

Open flames, incense, candles, or oil lamps are prohibited at all times. Possession of these items may result in a $50 - $100 fine and additional conduct action.

**Evacuation**

Failure to evacuate during a fire alarm or a fire alarm drill may result in disciplinary action.

**Fire Safety Education and Training**

The Roger Williams University Department of Environmental Health and Safety conducts both mandatory and voluntary fire safety training. Mandatory training events include quarterly supervised residence hall fire drills, staff fire extinguisher training, and general fire safety training for the following University groups: Resident Assistant (RAs), Coordinator of Residence and Education (CORES), Peer Educators with Expertise in Referrals (PEERs), Health and Wellness Education (HAWEs), and the Community Assistance for Residence Education staff (TEAM CARE).

**Future Improvements**

1. Almeida Apartment Complex sprinkler system installation (2 year phased project)
2. Stonewall Terrace new fire alarm system,
3. Bayside Apartment Complex new fire alarm system
4. Maple Hall upgrade from local smoke detectors to per supervised, addressable smoke detectors in the dormitory rooms.
5. Campus-wide upgrade from Metasys hardwire fire alarm reporting system to Keltron wireless fire alarm reporting system.
